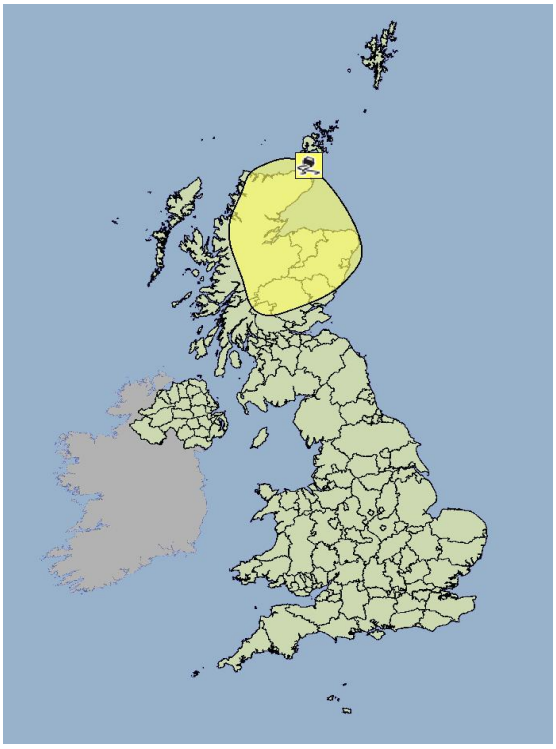
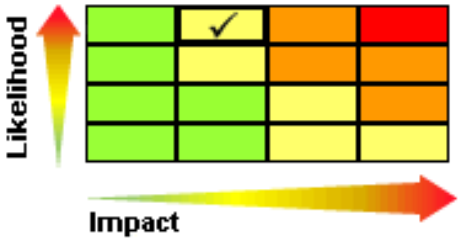
National Severe Weather Warning Service





Chief Forecasters Assessment
Following some showery rain on Saturday afternoon, with sleet or snow on high ground, clear spells will develop, allowing ground temperatures to fall. Icy stretches will form particularly where lying snow melts and then refreezes. Another band of rain arriving overnight into Sunday morning may fall onto frozen surfaces for a time and could also bring 2-5 cm of snow on ground above 200-300m.

The Met Office have issued a **Yellow Warning** of **Ice**

Valid from **15:00 on Sat, 30th Dec 2017** until **10:00 on Sun, 31st Dec 2017**

Ice will form on untreated roads pavements and cycle paths. In addition some snowfalls may affect higher routes later on Saturday night and into Sunday morning.

Some longer journey times are possible as well as injuries from slips and falls on icy surfaces.
